Profile

Passionate Machine Learning enthusiast adept in stock analysis and trading. Possess a proven track record of leveraging data-driven insights for informed decision-making. Demonstrated ability to quickly grasp new concepts and technologies.

Skills

- Stock Market
- Machine Learning
- Python
- Data Analysing
- Django
- SQL
- AI Prompt Engineering

Education

2019-2021   **Kalyani Central Model School**   Kalyani

Pure Science , GPA: 6.84

2021-Present   **RCC Institute of Technology,**   Kolkata

Btech in Information Technology, GPA: 6.67

Courses

March 2021-December 2021   Complete Machine Learning & Data Science Bootcamp 2021   Udemy

Completed comprehensive Machine Learning course on Udemy, gaining expertise in algorithms such as regression, classification, and clustering. Proficient in implementing models for predictive analytics, feature engineering, and model evaluation. Acquired practical skills in Python programming, data preprocessing, and model deployment, contributing to a well-rounded understanding of machine learning concepts.
